

Stakeholder Questionnaire Pathologist

Record ID _____

Personal Data

age _____ sex _____

Occupation and Tasks

What is your profession / your position?

- ☐ Specialist in Pathology
☐ Resident in Pathology

How long have you been working as a pathologist
(including specialty training)?

(Please indicate here how many years you have been
working as a pathologist in total (also in other
institutions or in a different position).)

Your working field as a pathologist:

- ☐ only in diagnostics
☐ only in research
☐ both, in diagnostics and research

What are your tasks as a pathologist?

(Please list your tasks and give an indication of
the approximate share (in %) of your daily work you
typically spend on each of these tasks.)

Are you already working with digital/computational
pathology?

- ☐ yes, in routine diagnostics
☐ yes, in research
☐ no

Do you have access to a whole-slide scanner or can you
get digitised WSI (Whole Slide Images) of your glass
slides, if you need them?

- ☐ yes
☐ no
☐ I don't know

Do you use computer programs for analysis of
histopathology images?

- ☐ yes, in diagnostics
☐ yes, in research
☐ no

If you do use computer programs for analysis of
histopathology images:
Which apps/solutions do you use and for which tasks do
you use these?

How would you rate your knowledge/skills as a computer
user?

no computer-user skills excellent computer-user skills

=====

(Place a mark on the scale above)

Motivation and Goals

What are your motivating factors for doing your job well?

What annoys / frustrates you in your work as a pathologist?

Needs and Desires

What would constitute an ideal working environment and ideal working conditions for you?

(Please mention aspects regarding the workplace, infrastructure, organisational and social factors etc., which are important for you.)

For which tasks in diagnostics would you like to have apps/software to support you?

Under which conditions would you trust a decision made by a software applied in diagnostics?

Values and Aspirations

I see changes and innovations as a positive challenge and look forward to them.

strongly disagree strongly agree

=====

(Place a mark on the scale above)

I like working with new technical devices / technologies and innovations.

strongly disagree strongly agree

=====

(Place a mark on the scale above)

I am a "technophile".

strongly disagree strongly agree

=====

(Place a mark on the scale above)

I am looking forward to get more support by artificial intelligence solutions for my diagnostics tasks.

strongly disagree strongly agree

=====

(Place a mark on the scale above)

I often resort to experiences and findings from the past.

strongly disagree strongly agree

=====

(Place a mark on the scale above)

I read the manual before using a new device.

strongly disagree strongly agree

=====

(Place a mark on the scale above)

I am spontaneous and like to improvise.

strongly disagree strongly agree

=====

(Place a mark on the scale above)

I am sociable, socially engaged and enjoy spending time with friends / family.

strongly disagree strongly agree

(Place a mark on the scale above)

When I leave work, leisure time starts for me.

strongly disagree strongly agree

(Place a mark on the scale above)

In your opinion, do the following statements apply to a "typical" pathologist?

Pathologists work in a team.

strongly disagree strongly agree

(Place a mark on the scale above)

Pathologists are "technophiles".

strongly disagree strongly agree

(Place a mark on the scale above)

Pathologists see changes and innovations as a positive challenge and look forward to them.

strongly disagree strongly agree

(Place a mark on the scale above)

Pathologists like to work with new devices / technologies and innovations.

strongly disagree strongly agree

(Place a mark on the scale above)

Pathologists are spontaneous and like to improvise.

strongly disagree strongly agree

(Place a mark on the scale above)

Pathologists are sociable and active and enjoy spending time with friends / family.

strongly disagree strongly agree

(Place a mark on the scale above)

Pathologists read the manual before using a new device.

strongly disagree strongly agree

(Place a mark on the scale above)

Typical for Pathologists

In your opinion, which personal traits and characteristics are typical for pathologists?

In your opinion, what annoys / frustrates pathologists most?

In your opinion, what are the strongest motivating factors for pathologists?
